

Letters to the Editor 2008 - 2022

Mertzlufft F, Brettner F, Crystal GJ, Hollmann MW, Kasatkin A, Lönnquist PA, Singer D, Sümpelmann R, Wenzel V, Zander R, Ziegenfuß T

Intravenous fluids: issues warranting concern

Eur J Anaesthesiol 2022; 39: 388 - 394 - 396

Mertzlufft F et al.

Letter to the Editor (not accepted for publication)

Intravenous Fluids: Issues Warranting Concern

Anesth Analg Open Mind 2021

Mertzlufft F et al.

Letter to the Editor (not accepted for publication)

Intravenous Fluids: It's time for Action!

J Cardiothorac Vasc Anesth 2021

Mertzlufft F et al.

Letter to the Editor (not accepted for publication)

Intravenous Fluids: What we should do!

Anesthesiology 2020

Sümpelmann R, Zander R

Letter to the Editor (not accepted for publication)

Appraisal for a better understanding of the potential base excess of infusion solutions containing metabolizable anions

Anesth Analg 2019

Sümpelmann R, Zander R

Letter to the Editor (not accepted for publication)

Appraisal for a better understanding of osmolarity and osmolality of intravenous fluids

J Nephrol 2019

Zander R, Zacharowski K

Letter to the Editor (not accepted for publication) in response to Morris C et al., "Should we really be more 'balanced' in our fluid prescribing?"

Anaesthesia 2009, 64: 703-705

Sümpelmann R, Hollnberger H, Schmidt J, Strauss J, Zander R

Correspondence: Inappropriate perioperative fluid management in children: time for an isotonic solution?!

Paediatr Anaesth 2008; 18: 191
